

## Maxtaform New VALUE Grids

The new VALUE range of electron microscopy support grids has been introduced to satisfy the need for EM grids at low prices. The standard ranges of Maxtaform and Embra grids have been aimed at the research market and are 100% inspected.

The new VALUE range has been introduced for the general purpose user where the very highest quality of the research grade grids is not required and a competitive price is important.

### Features:

Low cost  
Copper, Nickel or Gold  
50 to 400 mesh

*All copper and nickel grids are supplied in vials of 120 pieces*

*All gold grids are supplied in vials of 60 pieces*

### Specifications

Mesh Size	Material	Catalogue No.	Pitch (µm)	Bar Width (µm)	Hole Size (µm)	Transmission (%)
50	Copper	<b>GM036/C</b>	508	83	425	70
	Nickel	<b>GM036/N</b>	508	83	425	70
	Gold	<b>GM036/G</b>	508	83	425	70
100	Copper	<b>GM037/C</b>	254	50	204	65
	Nickel	<b>GM037/N</b>	254	50	204	65
	Gold	<b>GM037/G</b>	254	50	204	65
150	Copper	<b>GM038/C</b>	169	38	131	60
	Nickel	<b>GM038/N</b>	169	38	131	60
	Gold	<b>GM038/G</b>	169	38	131	60
200	Copper	<b>GM039/C</b>	127	26	101	63
	Nickel	<b>GM039/N</b>	127	26	101	63
	Gold	<b>GM039/G</b>	127	26	101	63
300	Copper	<b>GM040/C</b>	85	25	60	50
	Nickel	<b>GM040/N</b>	85	25	60	50
	Gold	<b>GM040/G</b>	85	25	60	50
400	Copper	<b>GM041/C</b>	64	23	41	41
	Nickel	<b>GM041/N</b>	64	23	41	41
	Gold	<b>GM041/G</b>	64	23	41	41
