

Section Razor

Stainless steel blade housed in a black handle.

B254 Section razor, stainless steel each

Scalpels - Solid

Solid scalpel forged in stainless steel, the polished blade is available in four sizes **30mm** or **35mm** with overall length of scalpel of 142mm and **45mm** or **50mm** with overall length of 160mm.

S197 Scalpel, 30mm blade, stainless steel each
S198 Scalpel, 35mm blade, stainless steel each
S199 Scalpel, 45mm blade, stainless steel each
S200 Scalpel, 50mm blade, stainless steel each

Disposable Sterile Scalpels

With plastic handles and stainless steel blades they are supplied in a disposable sterile pack, in **individual**, transparent-topped polystyrene trays. **Packed in boxes of 10.** Sterilisation of the blades is achieved by Gamma radiation 2.5M.Rad.

S159/10 Scalpels, disposable sterile No. 10 blade box
S159/10A Scalpels, disposable sterile no. 10A blade box
S159/15 Scalpels, disposable sterile No. 15 blade box
S159/22 Scalpels, disposable sterile No. 22 blade box
S159/23 Scalpels, disposable sterile No. 23 blade box

Fine Scalpel Handles and Blades

The 'Fine' range has small, slim, precise sterile blades in stainless steel for delicate operations, supplied in individual metal foil packets. Three special handles are available either 100mm or 130mm long which are individually supplied in plastic wallets. There is now the **SF13** handle, 130mm long that incorporates an independently screwed top section designed for easier blade fitting and removal, a quarter turn of the handle is all that is required to release the blade.

Scalpel Blade Removers

The surgical blade remover comes **sterile** or **non-sterile** for single use and is contact safe. This handy and safety-conscious device gives maximum protection during the hazardous task of blade removal from no.3 and no.4 scalpel handles. The resultant enclosed blade in holder is then ideally suited for disposal to any appropriate waste container.

H060 Scalpel blade remove, sterile pack 20
H061 Scalpel blade remover, non-sterile pack 100

Tweezers & Small Tools

Post-Mortem Knife

Post-mortem knife with heavy-duty carbon steel blade. Screw-type fitting to either a die-cast handle or autoclavable solid-cast stainless steel handle.

Type PM40 blades, boxed in 10's.

Type PM40B (snubnose) blades, boxed in 10's

K108	Post-mortem knife handle, die cast	each
K108/S	Post-mortem knife handle, stainless steel	each
K109	Blades, post-mortem, PM40	pack 10
K109/B	Blades, post-mortem, PM40B	pack 10

Bone Cutter

Carbon steel, sprung, blade length 20mm, overall length 120mm.

C281	Bone cutter, carbon steel	each
-------------	---------------------------	------

Retrieving Tools

Clasp and magnetic retrieving tools for picking up components and hardware which have fallen into areas of difficult access. Both tools have an overall reach of 550mm, made from flexible tubing, which can be bent to a set position.

CLASP: Jaws are spring loaded and open to 15mm (10mm square closed). The jaws are opened from the handle end by a bell push button.

MAGNETIC: Capable of retaining weights up to 500g. Head diameter of 14mm.

T129	Clasp pick-up	each
T130	Magnetic pick-up	each

NEW, super strength magnetic pick-up tool, will lift up to 682g, similar to **T130** is flexible but cannot be bent into a set position, has a spring operated push plunger for activating deactivating magnet only when required. This activation is achieved by exposing the magnet from a shielded coil by depressing the plunger.

Manufactured with Neodymium-Iron-Boron extra high flux magnet.

T512	Magnetic pick-up, activated mag/field	each
