

Supplementary Lenses for Turret Stereos

Supplementary lenses for EMT. Require adapter.

MA515 Adapter to fit supplementary lenses to EMT2

MA518 Supplementary lens 0.5x WD 96mm

MA527 Supplementary lens 0.75x WD 63mm

MA513 Supplementary lens 1.5x WD 49mm

MA514 Supplementary lens 2x WD 34mm

Additional eyepieces as for EMZ5

Spare Bulbs for Stereos

MA560 6V 1.2A bulb for EM PB incident lamp and Flexispot illuminator

MA561 6V 1.2A bulb for EM PB transmitted amp

L137/1 7W fluorescent tube for Minifluor.

Illuminators for Stereo Microscopes

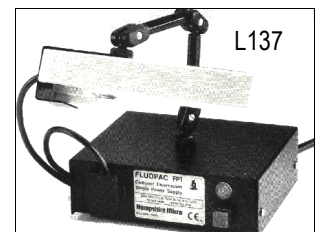

Free standing Flexispot illuminator

L140 Microspot lamp fitted with double flexible arm and mounted onto low voltage 6v power unit. Produces an even circular field of illumination suitable for stereo microscopy. Cool light output. Uses MA560 bulb.

Compact Fluorescent Illuminator

L137 Minifluor fluorescent lamp in reflector housing to fit focus block F. Supplied with 1m of earthed cable and 3-pin safety plug to connect to separate FLUOPAC1 power supply. Attaches with double arm directly to focus block or wherever else required including power supply. Suitable for all P and UHM long arm stands. Extremely long life P7 tube.
L137/1 Spare fluorescent tube 7W for Minifluor (colour 4000°K)

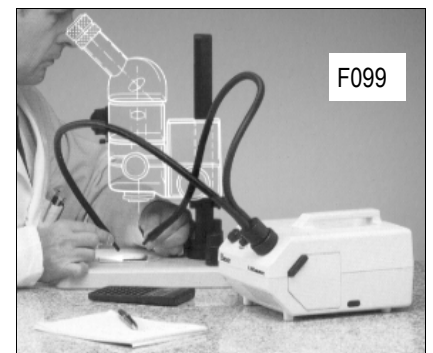

Schott Fibre Optic Illuminators

Fibre Optic Illuminator KL 1500LCD. A cold light source 150W with built-in fan, slide-in filter tray. Continuously variable brightness control either electronic or mechanical with intermediate fixed steps. Heat filter. Initial colour temperature 3200°K and 2800°K. On/off switch, LCD displays for colour temperature and operating mode, electronic stabilisation system for prolonged bulb life and easy access bulb change.

F099 220v-240v

115v-120v available on request

Requires light guide and any other accessory choices from list below

KL 1500 LCD Accessories. You need to choose a light guide. Other items optional.

Swan-neck light guides

F099/1 1 branch Ø 4.5mm/600mm

F099/2 2 branch Ø 4.5mm/600mm

Flexible light guides

F238 1 arm Ø 3.0mm/1000mm

F239 1 arm Ø 5.0mm/1600mm

F240 1 arm Ø 8.0mm/1000mm

F241 2 arms Ø 4.5mm/1000mm

F242 2 arms Ø 4.5mm/1600mm

F243 3 arms Ø 4.5mm/1000mm

Filters and accessories

F099/5 Daylight conversion filter

F099/6 Neutral filter

F099/7 Focusing lens for 4.5mm end of light-guide

F099/9 Polarising filter in rotatable mount. Screws onto focusing mount

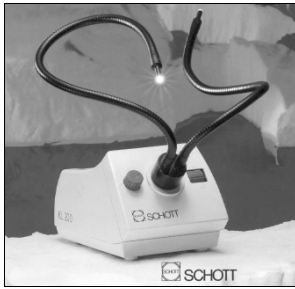

F099/8 Focusing lens & set of 4 colour filters

F099/3 4 point ring light 66mm Øi

F099/4 Spare bulb with reflector 15V 150W
