Cellulose acetate coverslips, unbreakable, flexible.

- M200** 22 x 22mm, 0.007" thick, box of 100

Quartz Coverslips

- M213** Circular quartz coverslips 10mm Ø pack of 5
M214 Circular quartz coverslips 22mm Ø pack of 5

Immersion Oils - See Chemical Section

Cedarwood oil, Fractoil (non fluorescent), Panscan, Panscan Xtra

Coverslip Forceps

- T179** Steel nickel plated forceps with angled flat blade, ideal for handling coverslips

Section Lifter

- S167** Stainless steel with blade length of 55mm

Pens and Pencils

Pencils-Chinagraph for writing on polished surfaces including glass

S167

Slide Mailing Boxes

Single and **double** slide mailers made from strong durable cardboard with flap cover and thumb groove for easy slide removal

- S371** *Single* cardboard slide holder pack of 10 *No Longer Available*
- S371/1** *Single* cardboard slide holder pack of 100 *No Longer Available*
- S371/D** *Double* cardboard slide holder pack of 10
- S371/D/1** *Double* cardboard slide holder pack of 100

We also offer a choice of microscope slide boxes manufactured in tough polypropylene for safe storage or transportation of up to **5** slides 3" x 1". The slides are easily inserted and are always protected with a snap-on positive lock lid.

- S124** Slide mailing box for 5 slides with end lid, pack of 50
- S124/1** As above pack of 10

- S523** As above but with lid on long side, pack of 10

2 Slide Mailing Box

A Polythene mailing vessel for transportation of 2 slides 3" x 1". Lid and body have tabs with holes to allow lid to be firmly secured to body.

S136 Slide mailing box for 2 slides pack of 25

Flat 2 Slide Mailers Plastic & Chipboard

These mailers hold two 3" x 1" slides. The flat design is more economical with space for mailing. The plastic version has a snap lock feature, the chipboard type requires tape.

S526 Plastic 2 slide mailer pack of 10 **S527** Chipboard 2 slide mailer pack of 10
S526/1 Plastic 2 slide mailer pack of 100 **S527/1** Chipboard 2 slide mailer pack of 100

Slide Storage Boxes

Wooden slide storage box, indexed, compact and strong provide very good value for money for storage of up to 100 slides 3" x 1". Hinged lid, leatherette covered and fitted with slotted wooden racks.

S095 Wooden slide storage box each
S096 As above pack of 10

Plastic slide storage box in moulded grey polystyrene with numbered slots for 3" x 1" (76mm x 25mm) slides. Removable, close fitting lid and comes with index card.

S204 Slide storage box - plastic for 25 slides each
S205 As above for 100 slides each

Coloured plastic slide boxes for 100 or 25 3" x 1" slides. The 100 slide box is made from rigid high impact polystyrene, they are secured with rust resistant, nickel-plated clips and hinge pins and the bottoms have cork liners. To ensure proper slide identification each slot is numbered to correspond to the index on the inside cover.

Boxes for 100 slides
S524 Red **S524/B** Blue **S524/Y** Yellow
S524/G Green **S524/W** White

25 Slide Box grooved and numbered with a tight fitting lid to ensure complete protection of contents. Each slide projects above the sides for easy removal. There is a slot on the outside of the box to accept an identification tag.

Micropipette Puller

The model 773 is ideal for producing short shank submicron pipettes for microinjection, for large diameter pipettes for patch electrode recording. It can store up to 15 user settings as 'programmes' with easy recall. It has a high production rate of pipettes and reduces the need to produce large quantities.

Each program can have up to 10 independent stages. It can produce short shank pipettes. Programs are entered and edited. Information displayed on a LCD. The display also shows the current stage. Example programs for different pipettes are included.

Specifications

Weight	15Kg
Size	51 x 27 x 21cm
Power supply	230v 50Hz or 115v 60Hz
Power consumption	20W
Mode of operation	Horizontally operated solenoid
Heater	Plug-in platinum coil
Temperature control	IR detector with feedback

P497/230 Micropipette puller 230v 50Hz
P497/115 Micropipette puller 115v 60Hz

Lens Cleaning Tissue

A low-lint, light fibre tissue specifically designed for cleaning microscope lenses safely without scratching or smearing.

T067 Microscope lens tissue 10 x 15cm 10 wall
T498 Microscope lens tissue 20 x 30cm pack 10

Micrometer Calibration Scale for Incident & Transmitted Light

This **incident light scale** (PS5R) and the **transmitted light scale** (PS5T) are deposited chrome image on a square of glass, mounted in a stainless steel slide mount and accompanied by an internationally traceable certificate of calibration of ISO.

Features:

20mm scale in 0.01mm divisions (serial numbered, 0.01mm divisions)
 Negative image for reflected (incident) light
 Unique engraved serial number for ISO traceability
 Stainless steel slide mount and lacquered wooden case

S525 Slide box for **25** slides

Microscope Slide Trays

S282

S281

Rigid cardboard slide holder to contain **24** slides in 4 compartments with two hinged flaps with index.

S281 Microscope slide tray for **24** slides pack of 10

Rigid cardboard slide holder for **20** slides in individual compartments with two hinged flaps with index.

S282 Microscope slide tray for **20** slides pack of 10

Unique engraved serial number for ISO traceability
Stainless steel slide mount and lacquered wood

M442 PS5R incident light micrometer scale
M442/UKA PS5R with UKAS certificate
M442/NPL PS5R with NPL certificate

Calibrations of compound microscopes at low magnification for the measurement of fields of view require a longer scale. The new PS5 has a high accuracy scale of 20mm with 1000 divisions. This new **transmitted light scale** (PS5) has a scale length, which is subdivided into 10 micron divisions.

M443 PS5 transmitted light micrometer scale
M443/UKA PS5 with UKAS certificate
M443/NPL PS5 with NPL certificate
