

NEGA-FILES for Negative, Print and Microscope Slide & 35mm (2"x2") Slide Storage

NEGA-FILES are a crafted wooden modular storage system enabling you to design your storage to suit your needs and provide furniture quality appearance. Can be bench or floor mounted and is fully expandable and stackable. The system accepts many sizes of negatives and prints and each NEGA-FILE unit is fashioned from **solid, seasoned hardwood** and finished in a lustrous natural tone. The frames and drawer fronts are solid mahogany, lock corner or rabbit joint construction and the hardware appointments include brass plated box corners and sturdy escutcheon pins for the neat stacking of one on another. There are also brass plated combination drawer pulls and card holders. Each unit is 13¼" wide x 18" long (33.65 x 45.7cm).

These units are *immune to fungus attack* and are thus ideal for film microscope slide or 35mm slide storage. Automatic 'stops' prevent drawers from being completely opened without an extra downward motion. Cabinet locks furnished on special order.
