Slide Staining Racks

S260 Stainless steel staining rack carries 60 slides horizontally

S259 Stainless steel staining rack carries 60 slides vertically

Plastic (Polyacetal) Staining Rack (resistant to xylene and alcohol)

The rack carries 25 slides 76 x 26mm horizontally and is fitted with a swing handle. The trough is fitted with a light-proof lid and can be used for staining, storage and carriage. A polystyrene storage box accommodating four of the staining racks is available.

S275 Plastic staining rack each

S276 Staining Trough each

S277 Storage box for 4 staining racks each

Coverslip Staining Racks

Stainless steel racks with grooves to hold either 25 or 6 coverslips vertically. Please add suffix **/S** for rack to hold 6 coverslips.

S298 Staining rack for 12mm coverslips

S391 Staining rack for 13mm coverslips

S394 Staining rack for 26mm coverslips

S299 Staining rack for 22mm coverslips

S392 Staining rack for 18mm coverslips

S395 Staining rack for 30mm coverslips

Coplin Staining Jars

Glass

A heavy duty staining jar with a drop-on glass lid for slide staining or use as a solvent chamber. Holds **5** single 76 x 26mm slides vertically or **10** slides back-to-back. Volume approx. 30ml.

J051 Coplin staining jar glass pack of 10 **J051/1** Coplin jar glass each

Polythene

A tough moulded Polythene staining jar with a screw-on lid with the same capacities as J051. It can also be useful for slide transit

J052 Coplin staining jar Polythene each **J052/1** Coplin jar Polythene pack of 10

Hellendahl-Vertical Staining Jar

An **all glass** rectangular staining jar which accommodates 16 slides 76 x 26mm vertically back-to-back and comes with a drop-on glass lid. The wide top eliminates the need to handle the slides with forceps. Volume 80ml.

J054 Hellendahl jar each

J054/1 Hellendahl jar pack of 10

Schieferdecker-Horizontal Staining Jar

An **all glass** rectangular staining jar with drop-on glass lid to accept 10 76 x 26mm microscope slides horizontally, volume 100ml

J053 Schieferdecker jar each

J053/1 Schieferdecker jar pack of 10

Glass Staining Block

A solid glass block with polished 6mm deep semi-circular cavity and flat glass cover. Useful for viewing or staining free-floating specimens.

S166 Staining block 40mm x 40mm each

J051

J052

Glass Staining Trough and Slide Carrier

Glass staining trough 83mm x 103mm x 70mm high with smooth sides and drop-on glass lid. Accepts one glass slide carrier holding 20 slides 76 x 26mm back-to-back

S337 Staining trough each

S338 Glass slide carrier each

Staining Bath and Racks for 50 Slides

A glass staining bath with the capacity to take 50 glass microscope slides in 10 slide racks each holder carrying 5 slides. The slides can remain in the holder even during microscopic examination if required.

S404 Staining bath glass

S404/R Slide holder racks

Columbria Jar for Coverslip Staining

Glass staining jar with grooves to take 22mm square coverslips vertically, 4 individually or 8 back to back. Black plastic lid with foil lined cork backing. Low volume (8ml) makes it ideal for use with costly reagents.

J055 Columbria coverglass staining jar

J055/1 Columbria jar pack of 10

Pyrex Glass Dish

A clear, circular, flat bottom dish without spout, 140mm Ø and 75mm deep with a volume of 900ml.

B244 Circular Pyrex dish each

Dropper Bottles

A clear glass drop bottle with plastic stopper and glass rod dropper. Ideal for dispensing immersion oil.

B174 Dropper bottle with glass rod 60ml each

T.K. Drop Bottle

Dark glass bottle with ground in grooved glass stopper for dispensing small amounts of liquid.

B175 TK Drop bottle 50ml each

B174

B175

Spirit Levels

Bulls Eye Level with single vial which operates in all horizontal planes. Ideal for permanent or temporary attachment to laboratory equipment.
